

Pictorial Inventory

Careers

Digital PIC Special Features:

Requires NO Reading
Perfect for School-to-Career Transition
Directly Related to the D.O.T./G.O.E.
For All Students/Including Special Populations

The Digital Pictorial Inventory of Carrers is an affective domain interest assessment which requires no reading. PIC measures career interest by using Digital Quality Live Action Videos of REAL LIFE WORK scenes, instead of paper pencil tests. PIC is an excellent assessment for School-to-Career Transition Programs. PIC can be used by all students including special populations.

Pictorial Inventory Of Careers

PIC DV is a live action Career Assessment Inventory:

Students respond to live action video segments of real work situations. By rating each segment, students can then determine what Career/Vocational area they like best. Assessment results are used to pinpoint areas of strong interest, dislikes, and most important, areas which they have little or no knowledge.

PIC DV is available in live action:

VHS Video and in Live Action Digital Video Disk - DVD. The DVD version is used directly on the computer and is instantly scored for fast results.

Easy to Administer:

PIC DV Takes only 22 minutes
Easily Scored directly on the Computer
Comprehensive Results
Use individually or with large groups
Video and DVD formats available

Components of PIC DV:

2 Versions: Both are ALL Live Action
Video & DV Version for Regular Population
Video Version for Alternative or Special Population
Windows Compatible Software
100 Response Forms for each version
Permission to reproduce forms
Comprehensive User Manual

Bonus Features:

PIC DV-2000 Results are directly in integrated with the T.A.P., a Vocational Aptitude Assessment.
PIC Results are easily integrated with most other assessment systems.
